April 9, 2009
2:30–4:00 PM
245 Church St.

Lower Ground Lobby
George Vari Engineering
and Computing Centre

2009 BIOMEDICAL ENGINEERING
OPEN HOUSE

Posters & Hands-on Projects
Prepared by students in the BME 100 class on a number of topics related to Biomedical Engineering.

Topics Include
Heart Physiology • Corrosion of Biomaterials • Risk Reduction for Exposure to Blood-Borne Pathogens • Cord Blood Banking • Fetal Therapy • Ethical Considerations

A Great Opportunity
Find out more about the first cohort of biomedical engineering students and about these exciting and timely BME topics.
