# Course Outline (F2022)

## BME229: Biomedical Physics

### Instructor(s)

Jahan Tavakkoli [Coordinator]

Office: KHE-332C

Phone: See D2L

Email: jtavakkoli@ryerson.ca

Office Hours: Tuesday 10:00 – 11:00 am, and Friday 10:00 – 11:00 am (Virtual via Zoom)

### Calendar Description

Application of physics in medicine. This survey course will address basic concepts of medical imaging, nuclear medicine and radiation isotopes, radiation therapy, gamma spectroscopy and trace element analysis, and biomedical laser applications.

### Prerequisites

- BME 100 and CHY 102 and CPS 125 and ELE 202 and MTH 141 and MTH 240 and PCS 125 and PCS 211

### Antirequisites

- PCS 229

### Corequisites

None

### Compulsory Text(s):

### Reference Text(s):

### Learning Objectives (Indicators)

At the end of this course, the successful student will be able to:

1. Understands, interprets, articulates, and applies a basic knowledge of science in the identification, formulation and solution of basic problems. (1a)
2. Makes accurate use of technical literature and other information sources, and distinguishes between the information relevant to the problem situation and irrelevant information. (3a)
3. Demonstrates ability to conduct visual analysis. (3b)
4. Identifies appropriate technical literature and other information sources to meet a need, and clearly attributes sources. (12a)
5. Identifies resources and professional associations that address ongoing professional development. (12b)

**NOTE:** Numbers in parentheses refer to the graduate attributes required by the Canadian Engineering Accreditation Board (CEAB).
**Course Organization**

3.0 hours of lecture per week for 13 weeks
0.0 hours of tutorial per week for 12 weeks

**Teaching Assistants**

Marking TA:
Jae Lee, jae2.lee@ryerson.ca

**Course Evaluation**

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>In-class iClicker Questions (1/3 for participation and 2/3 for correct answers)</td>
<td>12 %</td>
</tr>
<tr>
<td>In-class Paper Quizzes (6 quizzes)</td>
<td>25 %</td>
</tr>
<tr>
<td>In-class Medical Equipment VR Demo and iClicker Quizzes (4 demos/quizzes)</td>
<td>8 %</td>
</tr>
<tr>
<td>Final Exam</td>
<td>55 %</td>
</tr>
<tr>
<td><strong>TOTAL:</strong></td>
<td>100 %</td>
</tr>
</tbody>
</table>

**Note:** In order for a student to pass a course, a minimum overall course mark of 50% must be obtained. In addition, for courses that have both "Theory and Laboratory" components, the student must pass the Laboratory and Theory portions separately by achieving a minimum of 50% in the combined Laboratory components and 50% in the combined Theory components. Please refer to the "Course Evaluation" section above for details on the Theory and Laboratory components (if applicable).

**Examinations**

- iClicker pop-up questions will be administered during lectures.
- 6 announced in-class paper quizzes. A quiz date will be announced at least one week earlier. The best 5 quizzes will be used to calculate the final quiz mark.
- 4 announced medical equipment virtual reality (VR) demos will be given during the lectures. Each demo will be followed by a iClicker quiz session.
- Final exam, during exam period, two and a half hours, closed-book (covers the entire course materials).

**Other Evaluation Information**

- In-class paper quizzes and final exam will contain multiple-choice, short-answer, and problem-solving questions.
- In-class iClicker pop-up questions will contain multiple-choice questions.
- All iClicker questions and paper quizzes are designed for individual student work. Sharing the answers and/or working on solutions in a group or getting help from other sources is considered as a breach of academic integrity and could trigger submitting a case of academic misconduct with the university's Academic Integrity Office.
- Students must have their Ryerson photo ID available at all the times during lectures and during any quiz/exam, and ready to show it to the course instructor and/or invigilating TA upon request.
- **THERE WILL BE NO MAKEUP ARRANGEMENT FOR MISSING EITHER IN-CLASS ICLICKER QUESTIONS/QUIZZES OR IN-CLASS PAPER QUizzes.**
- iClicker will be used for in-class clicker questions (http://www.iclicker.com/). Follow the instructions posted in D2L on how to purchase your iClicker Student app and to register it to the class.
- Sharing of calculators, pencils, pens or erasers is not permitted during any course examination/quiz.
- During any examination/quiz, only non-programmable calculator models allowed. Examples are: Sharp EL-546, Casio FX-991 or similar models.
- Cell phones, laptops, tablets or any other mobile electronic devices must only be used for iClicker questions. Any other use of electronic devices during lectures and/or examination/quiz is STRICTLY prohibited.
- Cell phones must be on silence all the time during lectures.
- Ryerson photo ID must be placed on the desk, at all times, during any course examination/quiz.
- Talking to another student, glancing over another student’s paper or being caught with non-allowed materials during an examination/quiz may result in a ZERO mark for the evaluation and a record of academic misconduct filed with the university’s AIO.

Policies & Important Information:

Students are reminded that they are required to adhere to all relevant university policies found in their online course shell in D2L and/or on the Senate website.

1. In accordance with the Policy on TMU Student E-mail Accounts (Policy 157), Toronto Metropolitan University (TMU) requires that any electronic communication by students to TMU faculty or staff be sent from their official university email account;
2. Any changes in the course outline, test dates, marking or evaluation will be discussed in class prior to being implemented;
3. Assignments, projects, reports and other deadline-bound course assessment components handed in past the due date will receive a mark of ZERO, unless otherwise stated. Marking information will be made available at the time when such course assessment components are announced.
4. Familiarize yourself with the tools you will need to use for remote learning. The Continuity of Learning Guide for students includes guides to completing quizzes or exams in D2L or Respondus, using D2L Brightspace, joining online meetings or lectures, and collaborating with the Google Suite.
5. The University has issued a minimum technology requirement for remote learning. Details can be found at: https://torontomu.ca/covid-19/students/minimum-technology-requirements-remote-learning. Please ensure you meet the minimum technology requirements as specified in the above link.
6. Toronto Metropolitan University COVID-19 Information and Updates (available https://www.torontomu.ca/covid-19/students) for Students summarizes the variety of resources available to students during the pandemic.
7. Refer to our Departmental FAQ page for information on common questions and issues at the following link: https://www.ecb.torontomu.ca/guides/Student.Academic.FAQ.html.

Missed Classes and/or Evaluations

When possible, students are required to inform their instructors of any situation which arises during the semester which may have an adverse effect upon their academic performance, and must request any consideration and accommodation according to the relevant policies as far in advance as possible. Failure to do so may jeopardize any academic appeals.

1. Academic Consideration Requests for missed work (e.g. missing tests, labs, etc) - According to Senate Policy 134, Section 1.2.3, if you miss any exams, quizzes, tests, labs, and/or assignments for health or compassionate reasons you need to inform your instructor(s) (via email whenever possible) in advance when you will be missing an exam, test or assignment deadline. When circumstances do not permit this, you must inform the instructor(s) as soon as reasonably possible". In the case of illness, a Toronto Metropolitan Student Health Certificate, or a letter on letterhead from an appropriate regulated health professional...
with the student declaration portion of the Student Health Certificate attached. For reasons other than illness, proper
documentation is also required (e.g. death certificate, police report, TTC report). **ALL supporting documentation for illness or
compassionate grounds MUST be submitted within three (3) working days of the missed work.** NOTE: You are required to
submit all of your pertinent documentation through the University's online Academic Consideration Request system at
the following link: prod.apps.ccs.ryerson.ca/senateapps.

2. **Religious, Aboriginal and Spiritual observance** - If a student needs accommodation because of religious, Aboriginal or
spiritual observance, they must submit a Request for Accommodation of Student Religious, Aboriginal and Spiritual
Observance AND an Academic Consideration Request form within the first 2 weeks of the class or, for a final examination,
within 2 weeks of the posting of the examination schedule. If the requested absence occurs within the first 2 weeks of classes, or
the dates are not known well in advance as they are linked to other conditions, these forms should be submitted with as much
lead time as possible in advance of the absence. Both documents are available at
www.torontomu.ca/senate/forms/relobservforminstr.pdf. If you are a full-time or part-time degree student, then you submit
the forms to your own program department or school;

3. **Academic Accommodation Support** - Before the first graded work is due, students registered with the Academic
Accommodation Support office (AAS - prod.apps.ccs.ryerson.ca/senateapps) should provide their instructors with an Academic
Accommodation letter that describes their academic accommodation plan.

---

**Virtual Proctoring Information (if used in this course)**

Online exam(s) within this course may use a virtual proctoring system. Please note that your completion of any such virtually proctored
time in order to ensure academic integrity is maintained and then will be deleted.

**Access to a computer that can support remote recording is your responsibility as a student.** The computer should have the latest
operating system, at a minimum Windows (10, 8, 7) or Mac (OS X 10.10 or higher) and web browser Google Chrome or Mozilla
Firefox. You will need to ensure that you can complete the exam using a reliable computer with a webcam and microphone available, as
well as a typical high-speed internet connection. Please note that you will be required to show your Toronto Metropolitan University
OneCard prior to beginning to write the exam. In cases where you do not have a Toronto Metropolitan University OneCard,
government issued ID is permitted.

Information will be provided prior to the exam date by your instructor who may provide an opportunity to test your set-up or provide
additional information about online proctoring. Since videos of you and your environment will be recorded while writing the exam,
please consider preparing the background (room / walls) so that personal details are not visible, or move to a room that you are
comfortable showing on camera.

---

**Academic Integrity**

Toronto Metropolitan University's [Policy 60 (the Academic Integrity policy)](https://www.torontomu.ca/senate/forms/academicintegritypolicy.pdf) applies to all students at the University. Forms of
academic misconduct include plagiarism, cheating, supplying false information to the University, and other acts. The most common
form of academic misconduct is plagiarism - a serious academic offence, with potentially severe penalties and other consequences. It is
expected, therefore, that all examinations and work submitted for evaluation and course credit will be the product of each student's
individual effort (or an authorized group of students). Submitting the same work for credit to more than one course, without instructor
approval, can also be considered a form of plagiarism.

Suspicions of academic misconduct may be referred to the Academic Integrity Office (AIO). Students who are found to have
committed academic misconduct will have a Disciplinary Notation (DN) placed on their academic record (not on their transcript) and
will normally be assigned one or more of the following penalties:

1. A grade reduction for the work, ranging up to an including a zero on the work (minimum penalty for graduate work is a zero on
   the work);
2. A grade reduction in the course greater than a zero on the work. (Note that this penalty can only be applied to course
   components worth 10% or less, and any additional penalty cannot exceed 10% of the final course grade. Students must be given
   prior notice that such a penalty will be assigned (e.g. in the course outline or on the assignment handout);
3. An F in the course;
4. More serious penalties up to and including expulsion from the University.
The unauthorized use of intellectual property of others, including your professor, for distribution, sale, or profit is expressly prohibited, in accordance with Policy 60 (Sections 2.8 and 2.10). Intellectual property includes, but is not limited to:

1. Slides
2. Lecture notes
3. Presentation materials used in and outside of class
4. Lab manuals
5. Course packs
6. Exams

For more detailed information on these issues, please refer to the Academic Integrity policy (https://www.torontomu.ca/senate/policies/pol60.pdf) and to the Academic Integrity Office website (https://www.torontomu.ca/academicintegrity).

**Academic Accommodation Support**

Toronto Metropolitan University acknowledges that students have diverse learning styles and a variety of academic needs. If you have a diagnosed disability that impacts your academic experience, connect with Academic Accommodation Support (AAS). Visit the AAS website or contact aasadmin@ryerson.ca for more information.

Note: All communication with AAS is voluntary and confidential, and will not appear on your transcript.

**Important Resources Available at Toronto Metropolitan University**

1. The Library provides research workshops and individual assistance. If the University is open, there is a Research Help desk on the second floor of the library, or students can use the Library's virtual research help service at https://library.torontomu.ca/ask to speak with a librarian.

2. Student Life and Learning Support offers group-based and individual help with writing, math, study skills, and transition support, as well as resources and checklists to support students as online learners.

3. You can submit an Academic Consideration Request when an extenuating circumstance has occurred that has significantly impacted your ability to fulfill an academic requirement. You may always visit the Senate website and select the blue radial button on the top right hand side entitled: Academic Consideration Request (ACR) to submit this request).

Please note that the Provost/Vice President Academic and Deans approved a COVID-19 statement for Fall 2022 related to academic consideration. This statement will be built into the Online Academic Consideration System and will also be on the Senate website (www.ryerson.ca/senate) in time for the Fall term:

*Policy 167: Academic Consideration for Fall 2022 due to COVID-19: Students who miss an assessment due to cold or flu-like symptoms, or due to self-isolation, are required to provide a health certificate. All absences must follow Senate Policy 167: Academic Consideration.*

Also NOTE: Policy 167: Academic Consideration does allow for a once per term academic consideration request without supporting documentation if the absence is less than 3 days in duration and is not for a final exam/final assessment. If the absence is more than 3 days in duration and/or is for a final exam/final assessment, documentation is required. For more information please see Senate Policy 167: Academic Consideration.

4. TMU COVID-19 Information and Updates for Students summarizes the variety of resources available to students during the pandemic.

5. TMU COVID-19 Vaccination Policy.

6. If taking a remote course, familiarize yourself with the tools you will need to use for remote learning. The Remote Learning guide for students includes guides to completing quizzes or exams in D2L Brightspace, with or without Respondus LockDown Browser and Monitor, using D2L Brightspace, joining online meetings or lectures, and collaborating with the Google Suite.
8. At Toronto Metropolitan University (TMU), we recognize that things can come up throughout the term that may interfere with a student's ability to succeed in their coursework. These circumstances are outside of one's control and can have a serious impact on physical and mental well-being. Seeking help can be a challenge, especially in those times of crisis.

If you are experiencing a mental health crisis, please call 911 and go to the nearest hospital emergency room. You can also access these outside resources at anytime:

- **Distress Line:** 24/7 line for if you are in crisis, feeling suicidal or in need of emotional support (phone: 416-408-4357)
- **Good2Talk:** 24/7 hour line for postsecondary students (phone: 1-866-925-5454)
- **Keep.meSAFE:** 24/7 access to confidential support through counsellors via My SSP app or 1-844-451-9700

If non-crisis support is needed, you can access these campus resources:

- Centre for Student Development and Counselling: 416-979-5195 or email csdc@ryerson.ca
- Consent Comes First - Office of Sexual Violence Support and Education: 416-919-5000 ext: 553596 or email osvse@ryerson.ca

We encourage all Toronto Metropolitan University community members to access available resources to ensure support is reachable. You can find more resources available through the Toronto Metropolitan University Mental Health and Wellbeing website.
