Sharp GP2Y0A41SK0F IR Range Sensor - 4 to 30cm

Product Code : RB-Dem-04

(3) Add

- Measuring distance range Min 4 to Max 30 cm
- Designed to use in variety of Applications areas (Computer, OA 4equipment, Telecommunication Equipment (Terminal), Measuring equipment, Tooling machines, Home appliance etc.)
- Operating supply voltage 4.5 to 5.5 V
- Operating temperature -10 to +60 C

About this product

Description

- Measuring distance range Min 4 to Max 30 cm
- Designed to use in variety of Applications areas (Computer, OA 4equipment, Telecommunication Equipment (Terminal), Measuring equipment, Tooling machines, Home appliance etc.)

- Operating supply voltage 4.5 to 5.5 V
- Operating temperature -10 to +60 C

Great sensor for reliable distance measurements!

Review by Electrical Engineering Student

General

This sensor works great for measuring distance and using that distance output in autonomous robotic navigation projects.

Simple position sensor

Review by Gary

General

Needed a way to drive an LED bargraph that displayed control position. Sensor worked perfectly and has held up fine. No issues with sunlight or any external light causing errors. Just wish I had picked up the JST connector.

Worked generally well, unexpected update rate

Review by Eric

General

The sensor itself worked well, but I was unpleasantly surprised by the 60Hz update rate. I missed

The sensor room worked fine, but I was unexpectedly surprised by the serial update rate. I missed that in the datasheet, it's not immediately obvious.
